Aarav Sharma

Senior AI & LLM Engineer

aarav.sharma@example.com | +1 (555) 234-5678 | San Francisco, CA

PROFESSIONAL SUMMARY

Senior AI Engineer with over 6 years of professional experience specializing in Generative AI, LLM fine-tuning, RAG pipelines, and vector databases. Proven track record deploying scalable AI services into production using PyTorch and FastAPI.

TECHNICAL SKILLS

- Programming: Python, C++, SQL, Bash
- AI/ML: PyTorch, LangChain, LlamaIndex, RAG, Hugging Face, Transformers
- Vector DBs: ChromaDB, Pinecone, FAISS
- Cloud & DevOps: Docker, Kubernetes, AWS, FastAPI, Git, CI/CD

WORK EXPERIENCE

Lead Generative AI Engineer — Nexus AI Labs (2022 - Present)

- Architected and deployed enterprise RAG pipeline serving 500,000 monthly queries using LangChain, ChromaDB, and OpenAI models.
- Fine-tuned open-source LLMs using PyTorch on AWS EC2 GPU clusters, improving response precision by 28%.
- Developed high-throughput FastAPI microservices containerized with Docker and orchestrated on Kubernetes.

Machine Learning Engineer — Cognitive Solutions (2018 - 2022)

- Engineered end-to-end NLP pipelines for automated document classification and sentiment analysis using Python and Hugging Face.
- Implemented vector similarity search reducing latency by 45% using FAISS index structures.

KEY PROJECTS

Enterprise DocuChat: Context-aware conversational RAG assistant using LangChain, ChromaDB, and Python FastAPI.
Neural Query Router: Semantic vector search engine with hybrid re-ranking and sub-second response times.

EDUCATION

Master of Science in Computer Science, Stanford University (2018)
