Carlos Mendez

Senior Java & Spring Boot Developer

carlos.mendez@example.com | +1 (555) 012-3456 | Dallas, TX

PROFESSIONAL SUMMARY

Enterprise Software Engineer with 6 years of experience developing mission-critical backend systems. Expert in Java, Spring, Spring Boot, MySQL, REST API, Docker, and Apache Kafka.

TECHNICAL SKILLS

- Languages: Java, SQL, Python
- Frameworks: Spring, Spring Boot, Hibernate, REST API, Microservices
- Databases: MySQL, PostgreSQL, Oracle
- Architecture: Kafka, Docker, Kubernetes, Jenkins, Maven, Git, Agile

WORK EXPERIENCE

Senior Java Developer — OmniBank Global (2020 - Present)

- Designed secure payment processing microservices using Java 17 and Spring Boot.
- Integrated Apache Kafka for real-time transaction event publication across internal banking services.
- Tuned Hibernate ORM queries and MySQL indexes to resolve database deadlocks.

Software Engineer — Enterprise Tech Solutions (2018 - 2020)

- Maintained core enterprise Java application backend and wrote JUnit regression tests.
- Created automated Jenkins build pipelines and containerized artifacts with Docker.

KEY PROJECTS

PayGateway Microservice: PCI-compliant payment transaction router built with Java and Spring Boot.
EventStream Broker: Kafka message consumer orchestrator processing high-volume banking telemetry.

EDUCATION

Bachelor of Science in Computer Engineering, UT Dallas (2018)
