Jessica Taylor

Cloud Security Engineer

jessica.taylor@example.com | +1 (555) 567-1234 | Washington, DC

PROFESSIONAL SUMMARY

Cloud Security Engineer with 4 years of experience implementing DevSecOps, identity governance, and vulnerability management. Skilled in AWS, Azure, Terraform, Linux, CI/CD, and security auditing.

TECHNICAL SKILLS

- Security: Cloud Security, Vulnerability Scanning, IAM, Cyber Security
- Platforms: AWS, Azure, Linux
- Automation: Terraform, Python, Bash, CI/CD, Git
- Compliance: SOC2, ISO 27001, CIS Benchmarks

WORK EXPERIENCE

Cloud Security Specialist — Fortress Cyber Defense (2022 - Present)

- Audited and remediated AWS IAM policies and security group rules across 30 enterprise accounts.
- Integrated automated static code security scanners (SAST) into GitHub Actions CI/CD pipelines.
- Authored Terraform guardrails enforcing encryption at rest and in transit for all cloud resources.

Information Security Analyst — SecureNet Solutions (2020 - 2022)

- Conducted vulnerability assessments across Linux systems and performed incident response analysis.
- Maintained compliance documentation for SOC2 and ISO 27001 security audits.

KEY PROJECTS

IAM Least Privilege Audit Tool: Python utility detecting over-permissive AWS IAM credentials.
Terraform Sentinel Guard: Automated policy-as-code security check for infrastructure pull requests.

EDUCATION

Bachelor of Science in Cybersecurity, George Mason University (2020)
