Liam O'Connor

Generative AI & Prompt Engineer

liam.oconnor@example.com | +1 (555) 678-9012 | New York, NY

PROFESSIONAL SUMMARY

Generative AI Specialist with 2 years of professional experience in prompt engineering, LLM orchestration, evaluation metrics, and AI workflow integration. Skilled in LangChain, Python, OpenAI APIs, and ChromaDB.

TECHNICAL SKILLS

- AI Engineering: Prompt Engineering, LangChain, OpenAI, LLM, RAG
- Languages & Frameworks: Python, FastAPI, JavaScript, REST API
- Vector Stores: ChromaDB, Pinecone
- Tools: Git, Postman, Docker

WORK EXPERIENCE

Generative AI Engineer — OmniBotics Tech (2023 - Present)

- Designed system prompt architectures and few-shot reasoning workflows for customer service LLMs.
- Integrated LangChain agents with external REST APIs and ChromaDB knowledge bases.
- Established automated unit testing to evaluate model hallucinations and output consistency.

KEY PROJECTS

SupportCopilot: Automated email draft generation tool with guardrail evaluation.
PromptBench: Benchmarking harness for comparing latency and quality across frontier LLM models.

EDUCATION

Bachelor of Arts in Cognitive Science, Columbia University (2022)
