Marcus Vance

NLP Data Scientist

marcus.vance@example.com | +1 (555) 456-7890 | Boston, MA

PROFESSIONAL SUMMARY

Data Scientist with 3 years of hands-on experience in Natural Language Processing, text summarization, and statistical modeling. Experienced with Python, BERT, PyTorch, SQL, and data visualization.

TECHNICAL SKILLS

- Core: Python, SQL, Statistics, Data Analysis
- NLP & ML: Natural Language Processing, BERT, PyTorch, NLTK, spaCy, Hugging Face
- Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- Tools: Git, Linux, Jupyter, Docker

WORK EXPERIENCE

NLP Specialist & Data Scientist — LexiCore Systems (2022 - Present)

- Fine-tuned BERT transformer models for clinical record entity extraction, achieving 91% F1 score.
- Built conversational intent recognition pipelines using spaCy, NLTK, and PyTorch.
- Extracted insights from unstructured text datasets exceeding 10 million rows using SQL and Pandas.

Associate Data Analyst — Beacon Analytics (2021 - 2022)

- Conducted statistical analyses and generated interactive data dashboards for executive stakeholders.
- Developed Python web scrapers to gather unstructured market intelligence text.

KEY PROJECTS

ClinicalNER: Named entity extraction model for medical notes using Hugging Face Transformers.
TopicRadar: Unsupervised semantic clustering tool for user feedback using TF-IDF and PyTorch embeddings.

EDUCATION

Master of Science in Computational Linguistics, Boston University (2021)
