TECHNICAL SKILLS

- Databases: PostgreSQL, MySQL, SQL Server, Redis, NoSQL
- Analytics & BI: Tableau, Power BI, Excel, Data Analysis, Statistics
- Languages & Scripts: SQL, Python, Bash
- DBA Skills: Index Optimization, Backup & Recovery, Performance Tuning

WORK EXPERIENCE

Senior Database Administrator — Apex Financial Services (2021 - Present)

- Managed 40+ PostgreSQL and MySQL production database clusters with automated replication and failover.
- Optimized slow analytical SQL queries, improving batch execution times by up to 60%.
- Configured disaster recovery backup routines ensuring zero data loss across business quarters.

Business Data Analyst — Summit Retail Group (2019 - 2021)

- Engineered interactive sales and inventory dashboards in Tableau and Power BI.
- Analyzed customer purchasing trends utilizing advanced SQL queries and Microsoft Excel.

KEY PROJECTS

DB Monitor Dashboard: PostgreSQL health monitoring and slow query alert tool written in Python.
Executive Sales BI Hub: Enterprise Power BI dashboard integrating multi-store retail data.

EDUCATION

Bachelor of Science in Management Information Systems, Arizona State (2019)
