# Sophia Chen

## Machine Learning Engineer

sophia.chen@example.com | +1 (555) 345-6789 | Seattle, WA

## PROFESSIONAL SUMMARY

Machine Learning Engineer with 4 years of experience building predictive models, computer vision systems, and automated ML pipelines. Highly skilled in TensorFlow, Scikit-learn, MLOps, and AWS cloud deployment.

## TECHNICAL SKILLS

- Languages: Python, SQL, R
- ML Frameworks: TensorFlow, PyTorch, Scikit-learn, OpenCV
- Data & MLOps: Pandas, NumPy, MLflow, Docker, AWS Sagemaker
- Databases: PostgreSQL, MySQL, Redis

## WORK EXPERIENCE

**Machine Learning Engineer — VisionTech Analytics (2021 - Present)**

- Trained and deployed deep learning object detection models using TensorFlow and OpenCV with 94% accuracy.
- Built automated MLOps model training and evaluation pipelines using MLflow and Docker.
- Collaborated with data engineering teams to optimize feature stores in PostgreSQL and Redis.

**Junior Data Scientist — DataSphere Corp (2020 - 2021)**

- Developed classification and regression models using Python and Scikit-learn to forecast customer churn.
- Wrote automated data cleaning and preprocessing scripts with Pandas and NumPy.

## KEY PROJECTS

**DefectDetector**: Real-time industrial anomaly detection system using TensorFlow and OpenCV.
**Automated Churn Predictor**: Gradient-boosted customer churn prediction model deployed via AWS Sagemaker.

## EDUCATION

Bachelor of Science in Data Science, University of Washington (2020)
